

## Claire Peers

I have always been aware of Heat Trace's existence as a company, because I live in the local area. However, I never knew about the large range of products that are manufactured here at the Helsby site.

My previous employment of ten years included a variety of roles from accounts to customer services and general office administration duties.

I was given the opportunity to join Heat Trace in July 2015, as a member of the Accounts Department. My responsibilities will include credit control, sales invoicing and learning the processes of exporting.

I enjoy interacting with customers and I feel that this role will be a great opportunity for me. I will be liaising with over seas customers on a regular basis, as well as with our growing UK customer base.
